Stockholm, Sweden

David Malmström ✌️

Senior Frontend Engineer

Experience

May 2018 – Present · Full-time

IT Consultant

DevCore AB

I lead and contribute to client projects, combining frontend development with UX, DevOps, and collaboration across disciplines.

Selected client work

Mar 2024 – Present

Front End Lead

Confidential client — large resource company

- Led the Vue 2 to Vue 3 migration across an enterprise ecommerce application's product listings, product pages, and checkout.
- Integrated multiple payment gateways and enabled ERP-specific configuration.
- Established communication between vanilla JavaScript and Vue, with shared JavaScript API methods.
- Introduced Vitest unit and component testing, and adopted TypeScript incrementally to catch errors in new and legacy code and make frontend behavior more predictable.

Jun 2025 – Aug 2025

Software Developer

Confidential client — charity

Built a React donation application with BankID integration, using TanStack Query for server state and Zustand for client state.

Nov 2019 – Mar 2024

Software Developer

Confidential client — large Swedish bank

- Led successive Angular upgrades from version 8 to 14 for private wealth management applications.
- Structured an Nx workspace with separate libraries, components, and services.
- Built a type-safe translation system with autocomplete for translation keys.
- Collaborated across teams and closely with the design system team in a cross-functional environment.
- Took ownership of a life insurance and pension application from another team and rebuilt it, expanding beyond private wealth management.

Aug 2017 – Mar 2018 · Part-time

Graphic Designer

Rätt Grafiska

Substitute graphic designer, creating work for print and digital channels, including magazines, brochures, business cards, websites, newsletters, stickers, and advertising.

Aug 2014 – Sep 2017 · Freelance

Graphic Designer

Freelance

Created logos, brand identities, and websites for clients.

About

I'm a senior frontend engineer with a background in design. I build and modernize web applications across ecommerce, finance, and charity, often contributing to DevOps and UX alongside frontend development. I enjoy improving how teams work and collaborating in agile teams.

- Linux

Accessibility and design

- Accessibility
- UX/UI
- Figma
- Adobe Illustrator

Leadership and collaboration

- Agile delivery (Scrum, SAFe)
- Cross-functional collaboration
- Technical leadership
- Mentoring junior developers

Education

2011–2013

Computer Science

Dalarna University

Studies toward a bachelor's degree; not completed.

July 2026

GitHub Copilot

GitHub · Certification

Languages

Swedish

Native or bilingual proficiency

English

Professional working proficiency

Recommendation

I can really recommend David if you are looking for someone who is dedicated, is curious to find new interesting ways forward and not least feels professional pride in what he delivers.

Daniel Blomgren
Software Developer at Carnegie
Worked together · March 2024

Outside work

Outside work, I enjoy yoga, meditation, indie video games, roleplaying games, and cooking. I also build Yxans klagan, a web tool for roleplaying games.
